300 BARRELS OF OIL PER DAY

Is the Lowest Estimate Thos. Piper Places on the T. A. P. Well—Quality Equal of Any in State

Editor Smith of the Los Gatos Mail is in touch with the latest developments in the oil fields and gave the following, along with many fine illustrations, in last week's paper:

The T. A. P. well was "brought in" about a month ago, capped and permitted to rest pending preparations for developing. The Mail has been in possession of these facts all along, but has been holding them back until matters had progressed to a point where we could have practically definite information for our readers. The time has now come when we are able to place before the waiting public enough facts to warrant a celebration.

About two weeks ago the casings were perforated for a distance of several hundred feet, with a result most satisfactory. There's oil in abundance, enough to verify Mr. Piper's prediction of a 300 barrel-a-day well, though that gentleman informs the Mail that it may be six months before the well's full capacity is demonstrated. He states that many of the gushers of the southern oil fields have been nursed along for many months before developing gushers or flowing wells, in fact, the biggest gusher of the lot was worked over a year before becoming a gusher. So there's no telling what the T. A. P. will develop into.

At present preparations are going steadily forward to take care of the product; leading troughs have been built, and settling and "bleeding" tanks are being erected, besides several receiving steel tanks of 2000 and 3000 barrel capacity, and fuel tanks. Plans are also on foot for the acquisition of a reservoir holding about 180,000 barrels. Several hundreds of barrels of oil have already been forced out of the well by the strong gas pressure, and gone to waste in the sump holes.

For quality Mr. Piper states that this oil is the equal of any found in California, and though the capacity cannot yet be determined it will not be less than that predicted—300 barrels a day. Depth of well and other details will not be divulged; we may state, however, that the depth is somewhere between 2,000 and 2,500 feet—at least 1,500 feet deeper than any of the pioneer drillers ever attained. It is no wonder that the early efforts were futile when their deepest wells were only about 800 feet; the great oil deposits are not so near the surface.

The Suburban well is a very close second to the T. A. P. well, and will be completed, so far as the drilling is concerned, within the next week. The stratas of rock and sand in this well are nearer the surface than at the T. A. P. well, showing the dip to be toward the east, and the drill is now fully 300 feet below the same stratas in the T. A. P. well, though about the same depth below the surface. The Suburban is going to be a dandy well, all right.

These two companies are practically one, though the stock in the former is in a greater number of hands.

The officers of the T. A. P. Oil Co. are: President, C. W. Davidson, of San Jose; Vice President, G. N. Farnsworth, of Colusa; Secretary, J. J. Crawford, of San Francisco. The Directors are the officers named together with A. Lowe, of San Francisco, and U. W. Brown and Mr. Baster, of Colusa.

The officers of the Suburban Oil Co. are: President, C. R. Downs, of Sutter Creek; Vice President, A. Lowe, of San Francisco; Secretary, J. J. Crawford, of San Francisco. The Directors are the officers above named and C. E. Voorhies and G. N. Farnsworth, of San Francisco.

Mr. Piper assures the Mail that within three months five other wells will have been started, material and machinery for which have been ordered and will soon be on the way. Perhaps before another year has ended there'll be a score or more.

There's another phase of this enterprise that will interest Los Gatos people, and that is that there is a very good probability that the principal place of business of these oil interests will be removed soon from San Francisco to Los Gatos for convenience. In this event large and convenient quarters will be required, so that there'll be office room, and room also for storing tools, supplies, etc. This, also, will mean much for our town, as it will carry with it influence for good and added business activity. Supplies for carrying on a great industry like this is sure to be will be something immense, and cannot be lightly considered.

A great deal has been said about this enterprise being a scheme to sell stock. The Mail has been repeatedly assured that there isn't a share of stock for sale, and there will not be. All the development work has been carried on with capital furnished by those who can afford it.

We might say for the benefit of those who have held back and refused to lease their lands that they may come, in time, to see that they have made a mistake and regret the course they have taken. And to the doubters and "knockers," that it would be a very graceful thing for them to become enthusiastic boosters. We don't need any knockers in our business, anyway.

Paragraphs Selected With a View
to Giving Busy Readers the
News in a Nutshell.

Los Angeles.—Fifteen carloads of California beans are a part of a steamship cargo loaded here bound for New York, via the Isthmus of Panama route.

Stockton.—Articles of incorporation for a new bank at Tracy have been filed. It is to be known as the Tracy State Bank and is capitalized at \$50,000, the greater part of which has already been subscribed.

Berkeley.—The mechanical trades building of the State Asylum for the Blind, Deaf and Dumb is a heap of ruins the result of a disastrous fire. The total loss will reach about \$30,000, which is fully covered by insurance.

Oroville.—Attorney J. M. McGee has filed written charges against Principal Howard P. Short of a local grammar school. Short compelled his daughter and another girl to stand up and stick pins into each other and forced them to wash their mouths with soap.

San Francisco.—The Public Administrator obtained letters in the matter of the estate of Stanley Ketchel, the well known pugilist, who was recently murdered in the East. The property here consists solely of Ketchel's automobile. The machine will be sold and the money sent to the fighter's mother.

Willows.—Experiments by Nathan Provance and other local ranchers in the growing of sugar cane near Elk creek in this county during the past season have proved so successful that it is expected that larger areas will be devoted to the plant next season and that a mill will be installed to handle the crop.

Seattle.—Private advices from Manila say that Mrs. Earl V. Geer, whose husband was killed in the uprising of natives on Mindanao island, escaped unharmed. Mrs. Geer, according to the message, is safe at Zamboanga. The body of her husband has been taken to Durven post. Geer was a relative of former Governor Geer of Oregon.

Lodi.—Lodi table grapes brought a record price in Montreal. A shipment of 900 crates sold for \$2251. Deducting the duty assessed by the Canadian Government of 50 cents a crate the net proceeds of the shipment came to \$1775. Up to date 1800 cars of Lodi grapes have been shipped to eastern markets and the total shipment for the season has been 2000 cars.

Los Angeles.—On complaint of the wife of wealthy Carl Newerf, manager of the Coast representative of the Goodyear Tire and Rubber Company, Mrs. Francis Lukas, a washer woman was arrested on the charge of having stolen a bar of soap, worth less than five cents. After a night in jail Mrs. Lukas appeared, sobbing bitterly, before the judge and was acquitted.

San Francisco.—Revelations of corruption almost as startling in proportion as the boodling operations of the Ruef-Schmitz Board of Supervisors in San Francisco have exposed the officials of San Mateo, who, it is said, constitute a graft gang that for years has disgraced the county and will at last be broken up by criminal prosecution conducted by Attorney General U. S. Webb.

San Francisco.—Seventeen injured men are confined in local hospitals, and more than a score are recounting their narrow escape from death when a gas main at the Clyde apartments, this city, exploded, following a fire in the basement, and hurled firemen, roomers, newspaper reporters and salvage men in all directions, while a hail of glass, brick and mortar shot into the street, scattering onlookers.

San Francisco.—Nearly two score of witnesses have been summoned from this city to answer before the coroner's jury and a special grand jury in Los Angeles in connection with the dynamiting of the Los Angeles Times. The owners and operators of a mysterious launch, several officials, employees of Giant Powder Works, the wife of one suspect, and acquaintances of other suspects make up the list. As yet nothing tangible is given out as to the responsibility of the crime.

CALIFORNIA EXHIBIT AT THE CHICAGO EXPOSITION

The Development Board Preparing a
Carload of Processed Fruit.

San Francisco.—The resources and development of California will be put before the people of the eastern and middle western States in a very comprehensive way at the U. S. Land and Irrigation Exposition which is to be held in Chicago November 19th to December 4th.

The California Development Board is preparing a carload of processed fruits, nuts and grains, as well as mineral and manufactured products for the California exhibit at that exposition and in conjunction with it daily stereopticon lectures and literature booths will be maintained.

Manager Robert Newton Lynch of the Development Board will have direct supervision of the work in Chicago and at the same time will speak in the interests of the Panama-Pacific Exposition in several of the eastern cities.

School Law Must be Obeyed.

Orange, N. J.—Not even the cares of motherhood are sufficient excuse for disobeying the compulsory education laws of New Jersey, which require all children to attend school until they are seventeen years old. This is the ruling of Judge Bray, here, in the case of Mrs. Angel Virgilie, a young Italian woman, who was arrested by the truant officer for not attending school. Mrs. Virgilie admitted that she is only fifteen years of age, but declared that inasmuch as she had been married more than a year and is the mother of a child, she did not see how she could spare the time to go to school. The court, temporarily suspending sentence, told her she must obey the law and must attend school at once or suffer the penalty prescribed under the statute.

Citizens Ask State Aid.

Sacramento.—Citizens and property owners of Shasta and Tehama counties have sent a petition to Secretary of State Curry urging him to take up their fight against the Northern Power Company. They point out that for years they have owned and tilled a strip of fertile land 30 miles long and 20 miles wide and more recently the power company, by a network of ditches has not only usurped their water rights, but destroyed the value of the property as well. They insist that they have fought the power company until their funds have become exhausted and now ask the State for aid.

Nitro-Glycerine as a Cure.

Lodi.—Mrs. J. B. Thorpe, Lodi, has recovered from a severe illness in a peculiar manner. Suffering from prostration following a severe attack of la grippe, Mrs. Thorpe was given up to die. Her extremities became cold and she was pulseless and her eyes assumed the glassy stare common with dead people, and the physicians gave her up. But a sister of the dying woman was en route from San Francisco to be with her, and in an attempt to keep up life until she arrived, the doctors injected nitro-glycerine into the patient. She quickly rallied and is now on the road to recovery.

Union Demonstration in Los Angeles.

Los Angeles.—More than 15,000 union men and women appeared in a parade which was planned as a demonstration of union labor strength in Los Angeles. It was a silent, serious, orderly affair. Over three miles of the main city streets the marchers tramped, and the 14 patrolmen scattered throughout the lines, under the eyes of Chief Galloway and two captains, had nothing to do but keep step with the marchers and walk.

Brady Claims to Know.

Kansas City.—Lecturing at St. George's Church here, Colonel Jasper Ewing Brady, one of the four officers sent by the Government to investigate the destruction of the battleship Maine in Havana Harbor, February 14, 1898, declared the mine which destroyed the battleship was placed by the Cubans in order to bring war with Spain and the deliverance of Cuba.

Many Rats Furnished by Chinese.

Pekin.—An imperial edict issued by the Emperor of China commands all representatives of the Chinese Government stationed outside of China to cut off their queues. The edict takes immediate effect. It is made applicable especially to all members of the diplomatic and consular service.

In Hands of Bonesetter.

Youngstown, O.—Orval Overall, pitcher for the Chicago Nationals, was treated by Bonesetter Reese for an injury to his arm. He was here last summer and was fixed up by Reese for a similar injury. Next season Overall will either play first base or catch.

Russian Exiles Plan for Great Communitistic Home Farm

Los Angeles.—What promises to be the most remarkable and one of the largest communistic ventures in America is about to be established in Southern California by the Molnkane, a band of religious exiles from Central Russia now resident here. These thrifty aliens, numbering several thousand families, dependent upon manual labor for their daily bread, have saved the extraordinary sum of \$900,000 as a fund for the purchase of orchard and ranch lands, and the equipment of a gigantic agricultural undertaking. Negotiations are now under way for the purchase of 67,000 acres near San Diego.

Most of the organization involved is due to the efforts of Paul Cherbak, a former wealthy St. Petersburg aristocrat, whose fortune was confiscated by the Russian Government when he became a political exile some years ago. He is a close friend of Tolstoi.

The new colony will have a unique form of government, the old patriarchal family system, slightly extended, being applied. The man wisest by virtue of age, experience or training will be elected chief and occupy a position similar to both mayor and judge, though his office will be more like that of a presiding elder than a civil functionary. At the same time they maintain no churches, clergy or priests. They hold their prayer meetings from house to house. In the strange community a certain allotment of land will be made to each family. Schools will be built.

Season of Baseball Ends With Pennant to Portland

San Francisco.—The Coast Baseball League has closed one of the most interesting series of games ever played on this coast, and Portland carries off the pennant for 1910, winning by 12 points over Oakland, a close rival throughout the whole season.

Many changes have been announced for the lineup of the coming season, and the fans are settling down to a weary wait for the call to "play ball" a few months hence.

The standing of the teams are as follows: Portland 567, Oakland 555, San Francisco 518, Vernon 514, Los Angeles 455, Sacramento 393.

Portland beat Oakland 16 games, San

Francisco 20, Vernon 20, Los Angeles 24, Sacramento 34. Total 114. They lost 87 games.

Oakland beat Portland 27, San Francisco 25, Vernon 28, Los Angeles 20, Sacramento 22. Total 112. Lost 98.

San Francisco beat Portland 17, Oakland 26, Vernon 28, Los Angeles 24, Sacramento 19. Total 114. Lost 106.

Vernon beat Portland 24, Oakland 16, San Francisco 15, Los Angeles 31, Sacramento 27. Total 113. Lost 107.

Los Angeles beat Portland 10, Oakland 22, San Francisco 27, Vernon 16, Sacramento 26. Total 101. Lost 121.

Sacramento beat Portland 9, Oakland 18, San Francisco 19, Vernon 15, Los Angeles 22. Total 83. Lost 128.

Wireless From Ocean to Ocean Caught at Butte, Mont.

Butte, Mont.—Messages flashed from 100 miles out in the Pacific ocean to San Francisco by the steamship Korea, were caught in Butte by James Wattmer and Harold Satter in a wireless station here. Because of extraordinary conditions in the atmosphere the station, located at an altitude of more than 6000 feet was in fine working order and copies of messages from all over the United States were made.

Other messages from the navy yards in Maryland, Washington, D. C., and

California were taken with more or less success.

So far as known this is the longest stretch of territory ever covered on land by wireless and the success of the Butte experiment may lead to a new system of overland communication from coast to coast without wires.

The extreme altitude of the station prevented any interference from objects of earth, hitherto the cause of many unsuccessful experiments with wireless messages over long distances of land.

Tons of Shrimp Salad for Celestials Held Up at This Port

San Francisco.—Many tons of shrimp salad were in prospect for the almond-eyed children of the Celestial empire until Deputies E. E. Pedlar and M. L. Cross of the California State Fish Commission pounced upon Wing Hong as he was boarding the liner Mongolia to return to China.

When Wing arrived at the gangplank the deputies were waiting for him, already having inspected his voluminous "baggage" and seized the bulk of it,

which consisted of thirty-eight boxes, or 5000 pounds, of dried shrimps.

The shipment of dried shrimps out of the State is forbidden by law. Wing was placed under arrest and will be tried for the offense, and it may be many days before he is permitted to go, shrimpless, to China.

In spite of the activity of the authorities, it is estimated that no less than 250 tons of dried shrimps are sent from California to China every year.

American Caterpillar in South American Wheat

Stockton.—The first combined harvester to be used in South America is on its way to Buenos Ayres, and on its arrival there a crew of experts will assemble the big machine and show the wheat growers of Argentina the most up-to-date methods of harvesting. Argentina has long been a great wheat producing country, but the methods of harvesting have been crude, and it is proposed to introduce the better system to increase the profits of the

farmers and wheat growers of the land.

Another California invention, the caterpillar engine, will also be introduced in the South. One of these machines was shipped on the same boat that carried the combined harvester, and it will be used to demonstrate that for power on soft or hard ground it can take the place of five to seventy-five head of horses. The shippers expect to surprise the South Americans with the two machines.

Belle Elmore Alive and Hiding in, or Near, Chicago

Philadelphia.—Belle Elmore, the woman for whose life Dr. Harvey Hawley Crippen was sentenced to be hanged, is alive, says Francis Tracy Tobin a prominent lawyer of this city.

He said: "When she is found it will be in the vicinity of Chicago, where she is in hiding. I have letters in my

possession from people who know her and who have seen and spoken to her since she is said to have been murdered. In many instances she has not denied her identity. She was first seen in San Francisco. Later she was seen in Chicago, and after that she was seen and spoken to in several cities southland east of Chicago."

FIREMEN AND SAILORS WILL GET SUBSTANTIAL REWARDS

The Underwriters Will Divide \$10,000
Among the Fire Fighters.

San Diego.—In recognition of bravery displayed during the fire which threatened to destroy the American-Hawaiian steamship Alaskan at San Diego some months ago, the owners and the marine underwriters of this city will distribute \$10,000 among the members of the San Diego fire department and the crew of the steamer.

The fire department takes \$2500 of the total amount, and this will be credited to the pension fund, while in addition to a monetary reward, Captain Bennet of the Alaskan and the chief of the San Diego fire department will each be presented with a gold watch.

The presentation will take place at the southern port when the Alaskan reaches there on her trip to San Francisco from Salina Cruz. Representatives of the underwriters and the owners will be in San Diego to attend.

Pays Only One Fare for Eight.

St. Paul.—When Conductor T. Burns of the Northern Pacific road, went into the parlor car of his train he was greeted with two seats filled with seven children, their mother and one ticket.

"Madame," said he, "I am guided by the company's rules and you will have to pay half fare for some of these children."

"Sir!" replied the large woman with vigor, "the two over there are twins aged three years, Mary and May; in the same seat are sisters to little Marion here with me, being triplets born four years ago. I have here, as you see, children who are younger, one of them being but eleven weeks old. It will be another year before your company can charge half fare for any of my family."

Hungarian Quail for California.

Hayward.—Superintendent J. R. Argabrite of the State game farm, maintained by the State Fish and Game Commission near here on the Mount Eden road, received a shipment of 1000 Hungarian quails, larger and quicker than the valley quail, from Pennsylvania.

The farm has proved a great success this year, thousands of game birds being shipped to restock barren districts.

Next year the farm will probably be increased from 42 to 100 acres in size, which will enable many more birds to be raised and distributed.

Agricultural College Opening.

Berkeley.—More than twenty students have registered for the course in horticulture which opens on the Davis farm of the University November 9, and the class in household economics, which will be in charge of Miss Palmer of San Luis Obispo, has already an advance attendance of sixty-three. The short courses attracted considerable attention, the enrollment in the various classes being: General agriculture, 21; poultry husbandry, 30; animal husbandry and veterinary science, 26; market milk, 7; dairy manufactures, 29. More than 100 persons attended the farmers' week.

Overloaded Staging.

Los Angeles.—Ernest Rudolph is lying ill at the German hospital and a score of persons are suffering from cuts and bruises following the collapse of a stage in Turner Hall, where eighty members of the Southern Pacific Saengerbund were rehearsing. The singers were seated on high tiers of seats, the underpinning of which gave way. They were precipitated to the stage amid a mass of beams and boards.

Some Opium in Honolulu.

Honolulu.—Opium valued at \$2000 found in the trunk of a passenger on the steamer Mongolia on its arrival here from San Francisco has been seized by United States District Attorney Robert W. Breckons. Two custom officers have been arrested for complicity in the attempt to smuggle the drug. Recent seizures of opium at this port aggregate \$20,000 in value.

Large Families Must Eat.

Los Angeles.—The police are searching for a thief of uncertain mania who raided the thickly settled residence district near Pico and San Julian streets and carried off two gallons of milk which he took directly from the cow, \$25 in cash, a lemon pie and a dozen Plymouth Rock hens.

\$300,000 Will Help a Bit.

Sacramento.—The expenses for operating the State of California for the first four months of the present fiscal year are more than \$30,000 less than they were a year ago, according to the figures announced by State Controller Nye.

WEEK'S DOINGS OF THE WORLD BRIEFLY TOLD

News From All Points of the
Compass by Wire and
by Wireless.

Important Events From Oyster Bay
to Mombasa Presented in
Pithy Paragraphs.

Lisbon.—All the members of ex-Premier Franco's Cabinet have been indicted jointly with Franco.

Lemmons, S. D.—Mrs. Pearl Hanson of Salem, N. D., was the first to file a claim on the Cheyenne Indian reservation thrown open at midnight of October 31.

El Paso.—Four members of a party of stockholders of the Culminet and Arizona Mining Company, were robbed by bandits while their private car was on a siding at Lordsburg, N. M.

New Orleans.—Uncle Sam's money foundry is cleaning up for a close down. Three millions in gold has recently been shipped to Washington. It is thought the close is only temporary.

Lexington, Ky.—Most of the business section from here, has burned, the loss being close to \$200,000. The fire originated from sparks from a railroad engine.

Columbus, O.—Robbers blew open the safe in the Merchants' and Farmers' Bank at Hillard, ten miles west of Columbus, and took between \$8000 and \$10,000 in gold and currency, according to officers of the bank.

Dallas, Texas.—A serious wreck is reported on the Trinity & Brazos Valley Railroad at Honey Springs, ten miles south of Dallas. Freight and passenger trains collided. Several persons are said to have been killed.

Washington.—To keep the postal tracks clear for Christmas traffic the Postoffice Department has notified all postmasters to time their requisition for supplies so as to avoid shipment of them from Washington between December 19 and 27.

New York.—Because, as he alleges, his wife became a victim of the morphine habit through unlawful sales of the drug, Ernest C. Bilton has brought suit for \$5000 against Norman A. Little, a New York druggist. The suit is without parallel in the local courts.

New York.—The largest Oriental rug ever brought to this country has just been received here. It is a Persian carpet from the Kirman province, measuring nearly seventy-five feet by fifty feet and weighing almost a ton. The fabric is seventy years old and required sixty-five years in making.

Chicago.—In riding to the depot in a non-union taxicab, Jack Johnson, heavyweight pugilist, was struck by a thrown brick, cutting a large gash in his forehead. The champion deplored the incident and said he never stopped to notice in what sort of a vehicle he was riding. Johnson asserted he felt sure the brick was aimed at the driver.

Lisbon.—The new republic of Portugal is threatened with a military revolution. The Second and Fifth Regiments addressed a round robin to Provisional President Braga declaring that they were prepared for an insurrection if they were not granted the promised promotions and pensions for helping overthrow the monarchy. The Government probably will yield.

Grand Forks, N. D.—Probably the oldest man ever arrested in the United States has been imprisoned at Fort Totten by Deputy Marshal H. P. Wood, when he placed in custody C. M. Ziebach, aged 107 years, on a charge of introducing liquor on an Indian reservation. Ziebach's case will be considered by the next Federal Grand Jury and in the meantime he will be allowed freedom under bonds.

Lisbon.—Senor Franco, who was premier of Portugal when King Carlos and Crown Prince Luiz were assassinated in 1908, has been arrested on the charge of abuse of power during his incumbency. Franco's bail was fixed at \$200,000. The charges against him include the issuance of 70 illegal decrees and the liquidation of King Carlo's debts, amounting to \$500,000, with crown funds, on the pretext of augmenting the civil list.

Tucson, Ariz.—After a search of seven years, during which he was traced from Chicago to Honolulu and Shanghai and thence to Tucson, Henry P. McCoy was recently located here and yesterday received a reward of \$1000 cash and silver medal from the Carnegie hero fund commission. The reward was made for his heroic rescue of a man who had been imprisoned in a well near Chicago before he commenced the wanderings which carried him half around the world.

Complainers.
What is odious but noise, and people who scream and bewail! People whose vane points always east, who live to dine, who send for the doctor, who coddle themselves, who toast their feet on the register, who intrigue to secure a padded chair and a corner out of the draught. Suffer them once to begin the enumeration of their infirmities, and the sun will go down on the unfinished tale.—Emerson.

Distressing.
"Yes," said Miss Overton, "I've suffered a great deal from insomnia during the past few weeks."
"Indeed!" rejoined her friend. "Can't you do anything to relieve it?"
"No," was the reply. "I can't request the girl next door to take her beau in the house instead of keeping him out on the front porch every night."

The Placable Son of Nun.
Joshua chuckled.
"I never let the sun go down on my anger," he cried.
Herewith he held it up till he finished the walloping.

The new Ayer's Hair Vigor will certainly do this work, because, first of all, it destroys the germs which are the original cause of dandruff. Having given this aid, nature completes the cure. The scalp is restored to a perfectly healthy condition.—Made by the J. C. Ayer Co., Lowell, Mass.—

Lots of Fun.
The sweet little sister of a large family was asked if she didn't have a lot of fun with the big brothers who were at once her slaves and tyrants, her adoring and adored. "Yes'm," came the surprising response, accompanied by a seraphic smile, "we have lots of fun always. Sometimes," the wide eyes waxing fascinatingly reminiscent and dreamy, "sometimes they fight me, an' sometimes I fight them!"

Happiness Within Us.
Our happiness mainly depends on the freedom that reigns within us; a freedom that widens with every good deed and contracts beneath acts of evil. Not metaphorically, but literally, does Marcus Aurelius free himself each time he discovers a new truth in indulgence, each time that he pardons, each time he reflects.—Maeterlinck.

Nearly Always Right.
The man who doesn't think he is a lady killer generally isn't.

Preferred the Hats.
They tell a story of a French count who tried an experiment recently. He invited men and women of rank to see one of his plays produced, and had a flunky shout as they entered the theater: "Ladies without hats and gentlemen go to the right; ladies in hats to the left." All the ladies passed to the left, notwithstanding the temptation of the gentlemen, and sat by themselves "in their hats."

Good Artificial Marble.
They are now making artificial marble with much success in Italy. The manufactory is in the shadow of Mount Etna and there common blocks of sandstone are put in a tank containing volcanic asphalt and coal tar and boiled for 36 hours. The stones are then taken out and polished and it is said that it takes an expert to tell them from black marble.

"Of all sad words of tongue and pen,
The sadest are these: 'It might have been'."

Yes, it might have been different, had this or that been so and so, but the voice and vote of the majority have made the result what it is. After the direct primary and the general election it would be difficult for any one to prove the charge that the voice of the majority has not prevailed. It therefore remains for the defeated candidates to accept the situation with good grace, and for the successful ones to prove that the confidence reposed in them has not been misplaced.

The recent campaign has been of more than usual interest to Campbell people because of its being the first election since the establishment of the Campbell Township. Considerable spirit was manifested but the result of the election clearly expressed the sentiment of the majority. The minority can now show the real American spirit by forgetting their little differences and co-operating for the good of the community.

"Less't he forget" it is too bad that the successful candidates did not each have a phonograph with him on the speech-making trips and kept a record of the many promises made to the people.

Judge Farley has again resumed his easy seat at the Campbell Courthouse and will be pleased to listen to the troubles of the populace for the next two years.

Assemblyman Bohnett Married in San Jose
Former Campbell Boy Carries on Two Campaigns at Once and Wins Out in Both

At a quiet and beautiful home wedding that took place last Wednesday night, Miss Wadelle Bevens, the attractive young daughter of Mr. and Mrs. E. A. Bevens, and a popular teacher of the Horace Mann School, became the bride of L. D. Bohnett, a prominent attorney and the Assemblyman for the 56th District. Only the immediate families were present, the Rev. George W. Foote officiating. The bride was exquisitely gowned in white, and the house was a bower of pink and white decorations. A well-appointed wedding supper followed the ceremony. —San Jose Mercury.

Mr. and Mrs. Bohnett left town that night for San Francisco and on the following morning started east on a honeymoon and business trip combined. They will first stop in Iowa and then go on to Ann Arbor, Mich., the former home of Mrs. Bohnett. They will return after about six weeks and make their home in San Jose.

The many friends in Campbell and vicinity extend hearty congratulations.

The Youth's Companion in 1911
Just fifty-two good numbers, one after another, of only the best reading selected from the world's abundance of every sort.

Nearly three hundred of the most entertaining stories ever written—not the kind that are forgotten as soon as read, but stories that one loves to remember and talk about.

Then there are the famous men and women who write for Companion readers. It is the next best thing to meeting them face to face, for they choose topics which are sure to be of interest to their audience of three million Companion readers.

The Announcement of the enlarged and improved Companion for next year will be sent to any address free, and with it sample copies of The Companion.

Those who subscribe at once, sending \$1.75, will receive free all the issues for the remaining weeks of 1910; also The Companion's Art Calendar for 1911, lithographed in thirteen colors and gold.

Card of Thanks
We wish to thus express our appreciation and thanks to the many friends who showed such kindness to us in so many ways during our recent calamity in the burning of our home.
Mr. and Mrs. D. R. Oliver.

"Will you be mine?"
The young man cried.
"Will you be my bride?"
"I will," said the maid, with the wit of a fairy.
"If you'll buy milk of the Kennedy dairy."

Wanted
Everyone in Campbell and vicinity to read the opening chapters of the new serial by Robert W. Chambers in the November number of Cosmopolitan Magazine. It is the greatest novel of the year and is illustrated by Charles Dana Gibson.

ORCHARD CITY GRANGE

Growth of Flowers Discussed at Length, Candidates Initiated—Big Plans for Thanksgiving Celebration

A very interesting meeting of Orchard City Grange was held last Tuesday evening at Odd Fellows' Hall, in Campbell. Notwithstanding the great interest in the election, a very good attendance was had. The flowers used in decorating at this meeting were principally chrysanthemums and the care and methods of growth of this flower was the subject for discussion during the lecturer's hour.

Also some timely suggestions were made by those interested in bulbs, and at the close of the Grange, each member was presented with a dozen daffodil bulbs of one of the finest varieties.

Two new members were initiated in the first and second degrees and arrangements made for conferring the third and fourth degrees, and the harvest feast, which will take place Tuesday evening, November 22, at which time a good, old-fashioned Thanksgiving celebration will be carried out.

A special session of the Grange was announced for next Tuesday evening, November 15, at Liberty Hall.

The billboard and advertising signs on fences and trees were discussed. Some members reported that active warfare on these nuisances had been begun in their neighborhoods with good results as to the appearance of those sections.—Mercury.

Dairy Changes Hands
Avery Kennedy recently purchased the dairy of Chas. Thackeray. The latter had five splendid cows and everybody who succeeded in becoming one of his customers considered themselves fortunate. Mr. Kennedy, a graduate of the San Luis Obispo Polytechnic School, has had both theoretical and practical experience in this line of work and will no doubt continue the excellent service.

A Good Position
Can be had by ambitious young men and ladies in the field "Wireless" or Railway telegraphy. Since the 8-hour law became effective, and since the Wireless companies are establishing stations throughout the country there is a great shortage of telegraphers. Positions pay beginners from \$70 to \$90 per month, with good chance of advancement. The National Telegraph Institute of Portland, Ore., operates six official institutes in America, under supervision of R. R. and Wireless Officials and places all graduates into positions. It will pay you to write them for full details.

WANTED—Orders for engraved cards, wedding invitations, etc. The Press Office.

Married
Rev. John Wesley Lewis was united in marriage Thursday afternoon to Mrs. Jennie Parker at the latter's home on South First St. The ceremony was performed by the Rev. Henry Trezona.

Notice
There will be a Union Gospel Temperance Meeting next Sunday evening, at the Congregational Church, Nov. 13th being the World's Temperance Sunday. This service is in charge of the Woman's Christian Temperance Union. Rev. Marshman will give the address. Members of the Union are requested to sit in a body.
